QuickRail BY FYPON™
SYNTHETIC RAILING SYSTEM

QuickRail™ Complete Rail Kits ▼ for Straight & Stair Applications

QuickRail™ kits are available for both straight and stair applications. Each complete kit features a Deluxe Top Rail, Flat Bottom Rail, Colonial or Square Spindles, crush block, brackets and bracket covers, as well as all the necessary screws for fast installation.

QuickRail™ synthetic railing systems can be attached to a wall, round column, QuickRail™ Complete Post Kit or QuickPost™. Complete Post Kit, QuickPost™ and Curved Bracket Kits (*for attaching to a round column*) must be purchased separately.

Beauty is an art form. Installation is a science.

The unique combination of materials and system design makes the QuickRail™ synthetic railing system one of the most technologically advanced railing systems on the market. QuickRail™ by **Fypon®** is virtually maintenance free. It will not decay, warp, fade, chip, splinter or rust. Strong and resilient brackets and rails meet stringent ICC testing requirements. And simple, step-by-step installation ensures all QuickRail™ products live up to their name.

Quick and Easy Installation

QuickRail™ is designed for easy installation. The only tools needed are a tape measure, hacksaw, drill, screwdriver and level.

Multi-layered Technology

QuickRail™ utilizes multi-layered extrusion technology. This provides greater strength than standard PVC railing systems.

Virtually Maintenance Free

All QuickRail™ Kits and Components come with a UV protected finish that never needs painting. A special ingredient, Titanium Dioxide, protects QuickRail™ from UV rays to ensure color retention.

All Components in One Box

Each QuickRail™ Kit is conveniently packaged to include all components in one box, including all hardware needed for installation. Additional accessories are available to complete your system, including Complete Post Kits, Bracket Kits for special applications, QuickPost™ Colonial porch posts and Gate Kits.

Concealed Screws

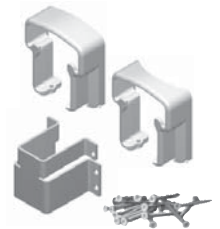

All brackets used with QuickRail™ kits feature concealed screws for a professional finished look.

- 1 Deluxe Top Rail
- 2 Top Rail Bracket & Cover
- 3 Square Spindles
- 4 Colonial Spindles
- 5 Flat Bottom Rail
- 6 Bottom Rail Bracket
- 7 Complete Post Kits
(Sold Separately)
- Crush Block *(not shown)*

Bracket Kits ▶

When additional brackets are needed or if you have a unique application, complete Bracket Kits are sold separately. Several kits to fit a variety of applications are available.

◀ Gate Kits

Complete Gate Kits are available to perfectly match your QuickRail™ synthetic railing system. Gate Kits come with latch and mounting hardware and are available in 36" & 42" heights.

Post Sleeves and/or Complete Post Kits Sold Separately

Complete Post Kits ▶

Used to join QuickRail™ Systems together. Complete Post Kits are sold separately and are available in 38" and 44" heights.

◀ QuickPost™ Synthetic Porch Post

QuickPost™ synthetic porch posts are the perfect complement to your QuickRail™ synthetic railing system. A trim kit is also available for easy finishing. Paintable DuraPoly™ Posts are also available. Contact Fypon Customer Service for details.

Post Sleeves *(Shown with Gate Kit below.)*

To cover existing structural supports, Post Sleeves are accessories to the QuickRail™ product lineup. The Post Sleeve is a one-piece, hollow design that slides over an existing support post.

Caps & Bases ▶

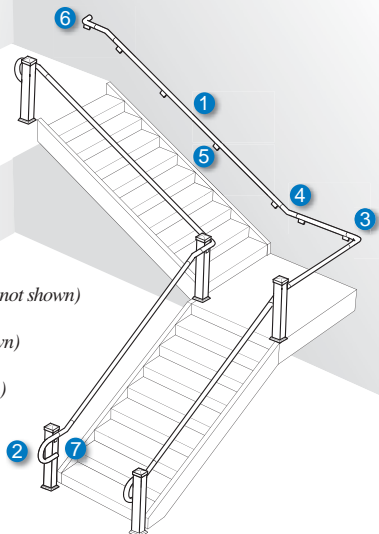

Sold separately, decorative Caps and Bases fit securely on Complete Post Kits and Post Sleeves to enhance the beauty of your QuickRail™ system.

Grab Rail System ▼

Fypon's Grab Rail System complements the QuickRail Synthetic Railing System and meets the 1 1/2" ADA Hand Requirements. Grab Rail can be mounted to an existing post or wall as well as to the Complete Post Kit. The Grab Rail System is very easy to install - no special tools are needed. *(Grab Rail is available in White finish only.)*

- 1 1-1/2" Round Handrail
- "P" loop Return
- 90° Corner Elbow
- Radius Elbow
- Inline Mounting Bracket
- 90° Post Return
- End Cap
- Corner Mounting Bracket *(not shown)*
- Straight Connector *(not shown)*
- Elbow Connector *(not shown)*
